

ADDITIONAL INFORMATION & FAQ's: "I just want trees!"

Whether or not you're looking for just one tree or to build a privacy/wind barrier, the best way to accomplish this is to come down to the nursery and talk with one of our experts and to hand pick your trees. We can do over the phone orders as well.

Q: What's the hardiest tree you have?

A: Canada Red Chokecherries, Colorado Blue Spruce, Spring Snow Crabapple(fruitless), and Austrian Pines are our favorites.

Q: Are you open to the public?

A: Yes! Bring your family down to pick out some trees!

Q: Best privacy & wind block trees?

A: We like to double stack Canada Reds with either Colorado Blues or Austrian pines.

Q: Do you offer installation of trees?

A: Yes! Our crews are awesome! We recommend having us install trees if you decide to get the large B&B trees. On average our trees weigh between 300-500lbs. Also, we guarantee our trees for a year if our crew installs a drip system with tree installation.

Q: Do you offer any discounts?

A: Military discount is 5%, & every year we have a fall sale.

Q: Do you warranty/guarantee your trees?

A: ONLY if MNLS installs the trees and puts a drip line on the trees at the time of planting.

We take all cards, cash, & check payments. We do not offer financing.
